

First Annual Gathering of the Communities

Saturday, September 10th, 2022

Game and Trophy Pics

The First wiffle ball game between the MC National Council and players from the chartered communities was greatly anticipated. MC National Council Speaker William Lowe coached the Council team from the injured reserve list. He had to calm the warriors and warriorettes with one healthy arm, but managed to keep his colleagues focused and in emergency session mode.

Hours later, was it to be the “thrill of victory,” or the “agony of defeat?” VICTORYYYYYYY. National Council 1-0 versus MCN Chartered Communities, by a score of 7-4. Community Pitcher/Principal Chief Hill demanded a recount of the final score, but missed the filing deadline, and was told “there’s always next year.”

Seriously, MCN Community Research and Development organized and hosted a great event. All attendees look forward to Gathering 2.0 next summer. Or, an end-of-2022 bit of competition? It was great to see community board officers, community members, MCN citizens and elected leadership fellowship together and enjoy a wide variety of activities.
